

## **ENVIRONMENT POLICY - July 2005**

In our commitment to protect the environment and to safeguard the health and safety of our employees, associates and general public, S.C.O.R.E. Limited makes every effort to meet the following goals for environmental protection:

S.C.O.R.E. Limited will comply with all local laws in Trinidad & Tobago and regulations that apply in the jurisdiction where we operate throughout the world.

S.C.O.R.E. Limited will establish corporate guidelines and procedures in the form of our Q.H.S.E. Program for Safety, Health and the Environment, to support compliance with applicable laws and environmental compliance regulations.

S.C.O.R.E. Limited will provide adequate employee training to meet the guidelines and procedures of our Q.H.S.E. programs and supplier systems.

S.C.O.R.E. Limited Field Operations will be conducted to minimize adverse effects to the environment.

S.C.O.R.E. Limited will provide adequate emergency spill control kits for our personnel at our facilities and in our vehicles while transporting any chemical and oil products. Each kit will have a plastic shovel, rubber gloves, splash goggles, absorbent pads, saw dust and/or red sand material for containing spills.

S.C.O.R.E. Limited will be sensitive and responsive to community concerns and will promptly provide appropriate information about operations, when necessary.

S.C.O.R.E. Limited will develop and implement specific remedial measures, in an efficient and effective manner, where company activities result in environmental damage.

S.C.O.R.E. Limited will develop and implement specific technological solutions in order to minimize environmental damage / impact. We will manage our waste accordingly.

S.C.O.R.E. Limited will promote the development and use of up to date technologies to improve our ability to maintain public health and safety and to protect the environment.

S.C.O.R.E. Limited will emphasize, with it's employees and associates, the personal responsibility in maintaining our commitment to protect human health and the environment.
