

The success of S.C.O.R.E. Limited is not just based on the supply of completion consultant personnel. To do so would be to miss a vital component in solution delivery.

It is the application of proven, qualified completion personnel in office, on-site and offshore.

This concept is based wholly on the human interface, that allows us to combine our skills and experience as a team to the planning and designing component in office, QA/QC of completion equipment and sand-control experience at the rig-site. Therefore delivering safe, cost effective and timely completions solutions to our clients worldwide.
